Shaikh Mohammed Ateeb

AI · GENAI & AUTOMATION ENGINEER · FULL-STACK DEVELOPER

mohammedateeb3005@gmail.com · +91 7219473686
Nashik, Maharashtra, India
github.com/Mohammed-Ateeb · linkedin.com/in/mohammed-ateeb-shaikh

AI & Data Science undergraduate (Diploma in Mechatronics) building hands-on across **generative AI, RAG, and open-source model workflows**, full-stack product engineering, and automation/MCP-driven architectures. Ships fast and solo — delivered a full-stack platform end-to-end in three weeks — and moves comfortably between software and hardware.

SKILLS

GenAI / Open-Source AI: LangChain, RAG, CNN, Grad-CAM, EfficientNet-B0, Groq API, LoRA Fine-Tuning, Prompt Engineering

Full-Stack / Web: Next.js, React.js, FastAPI, Node.js, Flask, REST APIs, MongoDB, Supabase

Languages: Python, Java, C++, SQL

Mobile / Cloud: Android Studio, React Native, Firebase (Auth/RTDB), AWS Cloud Practitioner

Automation / Hardware: PLC, SCADA, Ladder Logic, AutoCAD Electrical, Arduino, IoT Sensors

Currently Building: LoRA fine-tuning experiments & AI content-automation pipelines (MCP-based)

PROJECTS

Multi-Model SkinCare AI — Final Year Project

2025 – 2026

- Built a full-stack AI skincare recommendation platform using Next.js, FastAPI, and Supabase.
- Implemented CNN-based (EfficientNet-B0) skin condition detection with Grad-CAM explainability and a RAG-based LLM chat for personalized advice.

`Next.js · FastAPI · Supabase · EfficientNet-B0 · Grad-CAM · LangChain · Groq API`

AURA — Anonymous Social Platform

Mar 2025

- Built a full-stack anonymous social platform supporting 500+ simulated users, delivered end-to-end solo within three weeks.

`Python · Flask · SQL · REST APIs · HTML/CSS`

GPS-Based Attendance System

Sep 2025

- Developed an Android app automating attendance via geofencing and real-time location verification, with role-based login, session codes, and device-binding to prevent proxy attendance.

`Java · Firebase Auth · Firebase Realtime DB · FusedLocationProviderClient`

IoT-Based Automated Parking System

Nov 2025

- Designed an automated parking system using Arduino and IR sensors for real-time slot detection.

`Arduino · IR Sensors · Python`

INTERNSHIP

Design & Automation Intern

Jan – Apr 2024

RTF, Nashik

- Designed a machine assembly using AutoCAD for manufacturing and assembly.
- Developed poka-yoke fixtures to reduce assembly defects.
- Contributed to an automation project to streamline a manual process.

ACHIEVEMENTS

- Paper published in the Second International Conference, IC-RTETM (2023).
- National-Level Mechatronics Quiz Participant.

EDUCATION

B.Tech, AI & Data Science

K.K. Wagh Institute of Engineering Education & Research — CGPA 8.25 · 2024

Diploma, Mechatronics

Guru Gobind Singh Polytechnic — 88.89% · 2022

Higher Secondary

St. Lawrence High School & Jr. College — 82.00% · 2021

CERTIFICATIONS

- AWS Certified Cloud Practitioner.
- MKCL CLiQ: Excel, AutoCAD, Digital Marketing.
- PLC & SCADA Workshop — Autotech.
